

Gdańsk, 14 October 2020

Dear Ms Yayoi Kusama,

I am writing to share with you the joy we have gained from your wonderful work,

My name is Krzysztof Rześniowiecki, I am the art teacher at the 5th High School in Gdańsk, Poland. In the recent years we have been trying to create an installation inspired by our own imagination along with the work of world-renowned artists. I must confess that since we discovered your art, it has inspired us to create our installation in the school hall. Our students have patiently cut out hundreds of yellow dots and stuck them to the walls of the school assembly hall, please see the attached photos.

We are in awe of your determination, imagination and creative passion. Art, for us all, does not only bring joy and happiness, but also provides a means of relaxation and escape from everyday worries. It is a balm for our minds and our souls. We try not just to look at art, but also to create it and your Infinity project has inspired us all.

We wish you happiness and health in all your endeavours.

On behalf of your admiring students and teachers at the 5th High School in Gdańsk Oliwa.

Art Teacher, Krzysztof Rześniowiecki
